Professionals You Can Rely On

## Contactless Access Control Devices Product List

“Hand, Foot & Mouth Disease (HFMD) is present all year round in Singapore. Outbreaks do occur in childcare centres, kindergartens and schools. Although usually a mild disease, it has been known to cause serious complications and even death in some instances.”

Quoted from <http://www.hpb.gov.sg> (Health Promotional Board, 12 Apr 2012)

FTC support wide range of access control devices that provides total contactless solution:

1. Replace Exit Push Button with Contactless Exit Button (FTC-10006)

2. Replace Keypad Access with Contactless Smart Card Reader (FTC-10004)

3. Replace Biometric Reader with Face Recognition Reader (FTC-10025)
